WEEKLY DUTY

Starting my Monday with my weekly duty. This week I am in charge on watching the female students praying sohor at Surau Az-Zahra at the back of the school. My duty was similar to taking care of the boys at surau terbuka which was to tell the students to straightaway sit in their places in the sarau after taking their wudhuk. I also need to make sure they don't make much noise. They were easier to manage and control and the female school prefects also helped me out.

SCHOOL ASSEMBLY

In today's episode of another school assembly, the school had a session for appointing the new PRS (Pembimbingan Rakan Sebaya) students for the afternoon session. There were a total of new 35 PRS students for form 1 and form 2 and with hope these students will be able to help other students in the future.

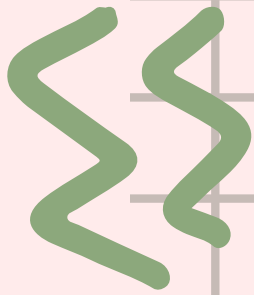

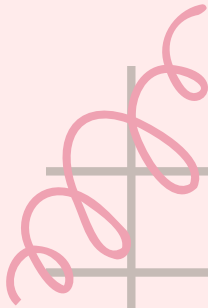

CLASSES

For my classes today, I taught them both on mental health, as tomorrow is Mental Health Awareness Day, it is best to teach the student about the mental awareness that they should be aware about. These days there are many people especially students who are coping with mental health, therefore I taught them few mental health, ways to cope and what should they do if they have one of those mental health.

CLASSES

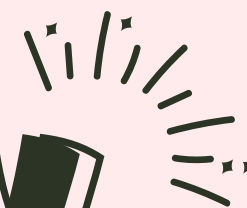

Today I taught my art class students as usual, I taught them about interior design. Based on the textbook I asked them to rewrite the notes into their books. The class that I am teacher is very week in Art subject So I asked them to create a hubble map of important notes so it will be easier for them to remember the points. Even though Art is a minor subject, it is still important for students to past and know the basic knowledge of arts for the exam soon.

ENGLISH CLUB MEETING

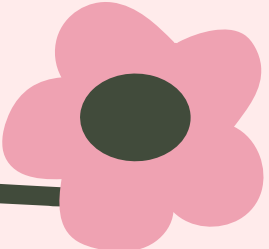

Memorizing script

Yesterday, me, Najwa and teacher Huda had a discussion on activities to do for the English Club meeting. She decided in roleplay and asked for our help to find short scripts for the roleplay. On the day itself which is today, we will let the students to be in groups and each group chooses the script they want.

Doing a roleplay

Students are told earlier on materials they should bring. After they choose their script, they will be given 2 hours to complete memorizing and finishing their props for the activity. Then each group will be given 5-7 minutes to act out their roleplay.

CLASSES

For my class today, I taught them about living a healthy lifestyle. Generally all the students know that we need to practice a healthy lifestyle but there seems to have a few students who mistaken a few unhealthy things as a healthy lifestyle.

1ST CLASS OBSERVATION

Today is finally the day for my first class observation with my mentor with 2 AlKindi. The materials that I used is mahjong paper and projector. Back to yesterday's topic, I taught the students about healthy lifestyles but this time they have to write an email for giving an advise. They will be watching a video and then do activities on a mahjong paper. Due to too much time spent on the activity, I couldn't complete the class exercise on time so ai gave it to them as a homework.

SPORTS AND CURRICULUM DAY

Today the school is having Sports and Curriculum day. My duty for today is to be in charge of the Hoola Hoop activity along with Hannah and cikgu Tuan Suriani. They had rounds for female players and male players as well for the teachers. Other than this activity, I also helped Najwa and Ustazah Roslana with calculating the medals on backstage. Today, there are many stalls open as well by the teachers and students, once we are done with our task, we went to see the stalls opened by them.

# SWOT ANALYSIS

## Strengths

Was able to come out with an interesting activity and lesson plan for this week's lessons

## Weaknesses

Couldn't finish the lesson in time especially for the class observation. Some students were not able to capture the instructions well.

## Opportunities

Students were able to build a teamwork with most of the activities held in class this week as a pair and as a group. They were able to come out with a variety answers after having a group discussion.

## Threats

During the observation, I took much time in assembling the projector, my internet connection also had a problem as well as my laptop having technical problem which made me extra nervous and was one of the reasons I could not finish my lesson in time.
