SCHOOL ASSEMBLY

In today's episode of school assembly, the school has invited one of the head police officers in the Gombak District to come and give a talk to school about bully and sexual harassment cases. Lately, there seems to be many cases happening in the afternoon session, therefore the school invited him to launch the program on student's disciplinary in school. After the talk, he and Sir Jagdave had the opportunity to hand students the certificate and medal for the award receiving session.

PROGRAM REMAJA HEBAT TOLAK LGBT

Right after the school assembly, the school has invited Encik Akhi Fairuz to give a speech on 'Remaja Hebat Tolak LGBT'

The poster features a background gradient from orange to blue. At the top left is the school crest and the text "SEKOLAH MENENGAH KEBANGSAAN TAMAN MELAWATI". In the center, a man in a blue kurta and glasses gives a thumbs-up, holding a small booklet titled "YAYASAN HEHAS". To his right, the event title "Program Ceramah 'Remaja Hebat Tolak LGBT'" is written in a stylized font. Below this, the date and time are listed: "23 OKTOBER 2023 | ISNIN SESI PAGI 11.30 PAGI-12.30 T.HARI SESI PETANG 4.15 PTG-6.15 PTG DEWAN SERI MELAWATI". At the bottom left, it says "PENCERAMAH JEMPUTAN: ENCIK AKHI FAIRUZ AL-JENGKAWI". On the right side, there is a vertical column of text in a red-bordered box:

CLASSES

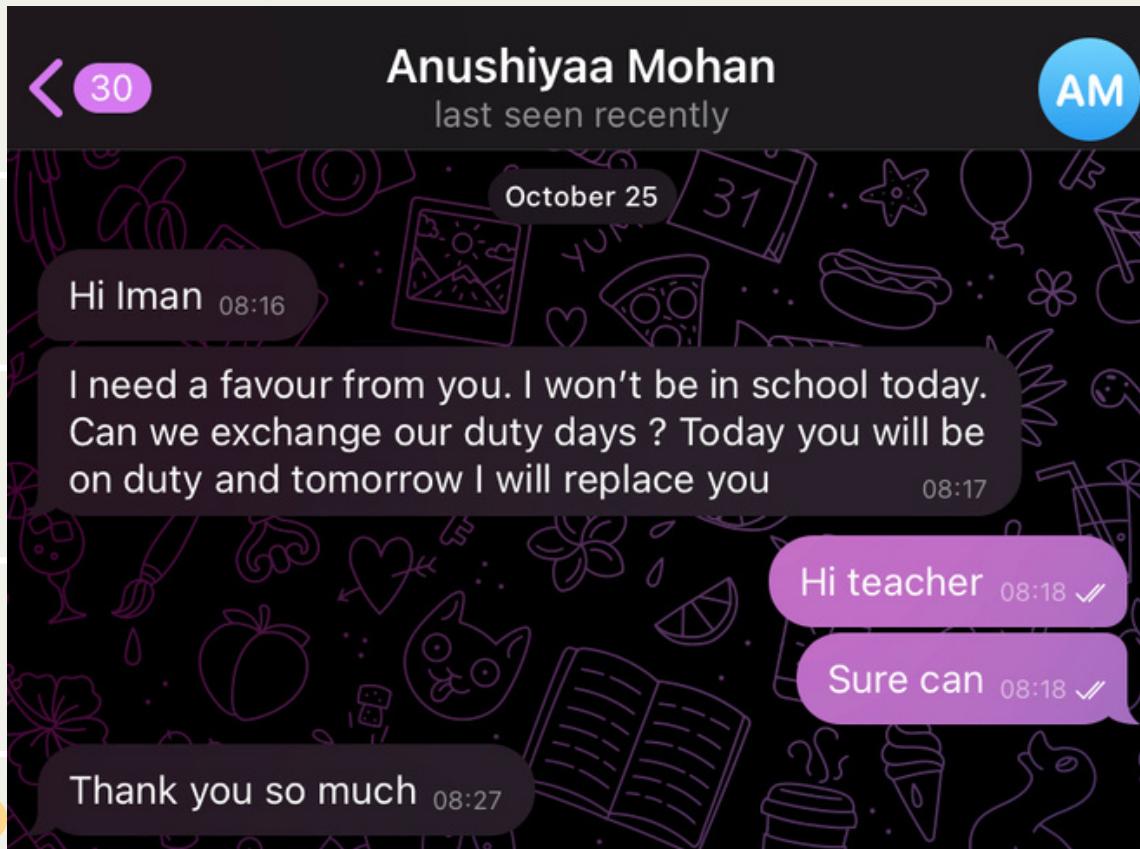

My classes for 2 AlJazari was postponed due to the talk with Encik Akhi at Dewan Seri Melawati took over the time during my class. However, for my second class 2 AlKindi, as the class was only half an hour, I did a short activity with them. Playing charades for education purpose based on the topic that we will be learning in the next class. This class enjoys playing charades and hangman but charades is one of the best games to enhance their vocabulary.

WEEKLY DUTY

This morning, teacher Anuyishaa texted me if I could switch days with her for duty as she would not be in school today. So I exchanged my duty day with her. Supposedly I was on duty tomorrow.

2ND & LAST CLASS OBSERVATION WITH MENTOR

Today is my second and last observation with my mentor. After receiving the feedbacks for both of my previous observations, I decided to buy myself a wireless microphone speaker to improve on my volume in class, because no matter how hard I try to speak louder in class, even students sometimes still could not hear me well. So as for this observation, I used the microphone and I prepared the materials earlier such as opening the tabs on my laptop and preparing the projector earlier. I asked for permission from the teacher who enters the class that I will be observing if I could enter 5 minutes early to prepare the project and she said yes as she was only doing relief for that class. So as soon as I entered I prepared the project, appointed out someone to help me control the slide and paste the objectives that I have pre-written on the whiteboard. I consulted with my mentor on the lesson that I will be teaching today and she asked me to teach about Tag Questions, similar to the lesson I did during the observation with my supervisor except I changed the explanations and the class exercise that suits their level as I was being observed in 2 AlJazari, this class has more high proficiency students in English compared to 2 AlKindi. For the observation, I didn't manage to complete all the objectives but I managed to finish concluding the lesson during the class hours, the class exercise I handed out to students and let them do it as a homework because there seems to be a confusion between the students during the class activity. After my observation ended, I returned back the project to my mentor and I was so happy to hear that she mentioned I have improved so much since my first observation, my mentor also joined the class activities in class, I was glad that she enjoyed the lesson. Although, there might still be a few missing out points missing out but she said it was just minor mistakes.

CLASSES

Today, I had classes as usual. For today's lesson I recap with the students on what they recently have learnt with me. For both classes, I asked them to write at least five out of ten sentences with the suitable tag question individually. After completing the work, seems that there are still a few students who are still confused with the negative and positive statement as well as negative and positive tag questions. Some mixed negative statement with negative tag questions and vice versa with positive sentences.

Other than my classes, I had two relief classes with 1 AlRazi and 2 Ibnu Khaldun. For these two classes, their main teacher has informed me earlier the tasks they want the students to do during the class relief.

PERKAMPUNGAN ILMU SPM

As I mentioned in last week's blog, Cikgu Muhammad and Puan Ili has assigned practical teachers to attend the Perkampungan Ilmu SPM for documentations at Grand Hotel Barakah, Ampang. However, Najwa and Hannah could not attend due to personal matters so me, Azmira and Hasimah (morning practical teachers) went to the venue to conduct our task. The programme started at 8am so I had to be there at 7am to start taking pictures. There was two slot subjects for the workshop, first was the workshop for Bahasa Melayu which was conducted by Cikgu Jalil at the Kasturi Hall and the second slot was for History subject which was separated by classes into two halls, conducted by Cikgu Yusnizan at the Ballroom and Cikgu Rosly at the Kasturi Hall. The Programme ended at 2pm after the award giving ceremony for the most active students during the 2 days workshop.

THAT'S ALL FOR
