# WEEKLY DUTY

My weekly duty for this week is again similar with last week and two weeks ago. Same task again where i need to gather the non muslims and girls who are on their period at the school canteen or the speech corner.

)))))))))))))))

# CLASSES

Today I will be teaching students how to make arrangements. Based on the textbook, I will be teaching students on how to make an arrangement for a plan on playing sports. Based on the textbook page 90, I will ask students to read the schedule first and do the questions before to check if they can read and understand the scdeule correctly. Proceeding with the activity, I played an audio of a dialogue from the speech in the textbook page 91. After they undefstood how to create the dialogue, I gave them 15 minutes to discuss on the their own dialogue with their partner and present them in front of the class.

# MEETING PENATARAN PBD

This morning, the teachers from afternoon session had a meeting to discuss on student's performances in class. Puan Mona (PK HEM from morning session) conducted the meeting this time instead of Sir Jagdave. This meeting was more like a workshop. Puan Mona mentioned that we must always keep record of all the materials used for while teaching as ot is our only proof that we have taught students that lesson. In the meeting also discussed on how yo key in their marks on the official platform but this is only for the permanent and main teachers.

# MEETINGS CO-CURRICULUM UNIFORM

This morning, we had another meeting with the Puteri Islam uniform. This week is a very busy week all the uniforms are having a marching competition next week so this week they will start practicing. Due to that, only little amount of people attended our meeting. Today there was 3 people who came. At first it was only two students then the other student came in late. For this meeting they were asked to create a bookmark. So they were told earlier to bring their own materials such as paper and colour pencils or markers.

# CLASSES

According to the RPT, today I will be teaching my classes on vocabularies related to excercising. Each sports pr exercise have different benefits so I taught them a few exercising benefits. I also taught them how often they need to do that exercise and where can they do it. Later students are given a text question and they need to answer comprehension questions based on the text.

That's all for  
week 10!!
