**LAUNCHING OF ACADEMIC
AND INDEPENDENCE MONTH**

SCHOOL ASSEMBLY

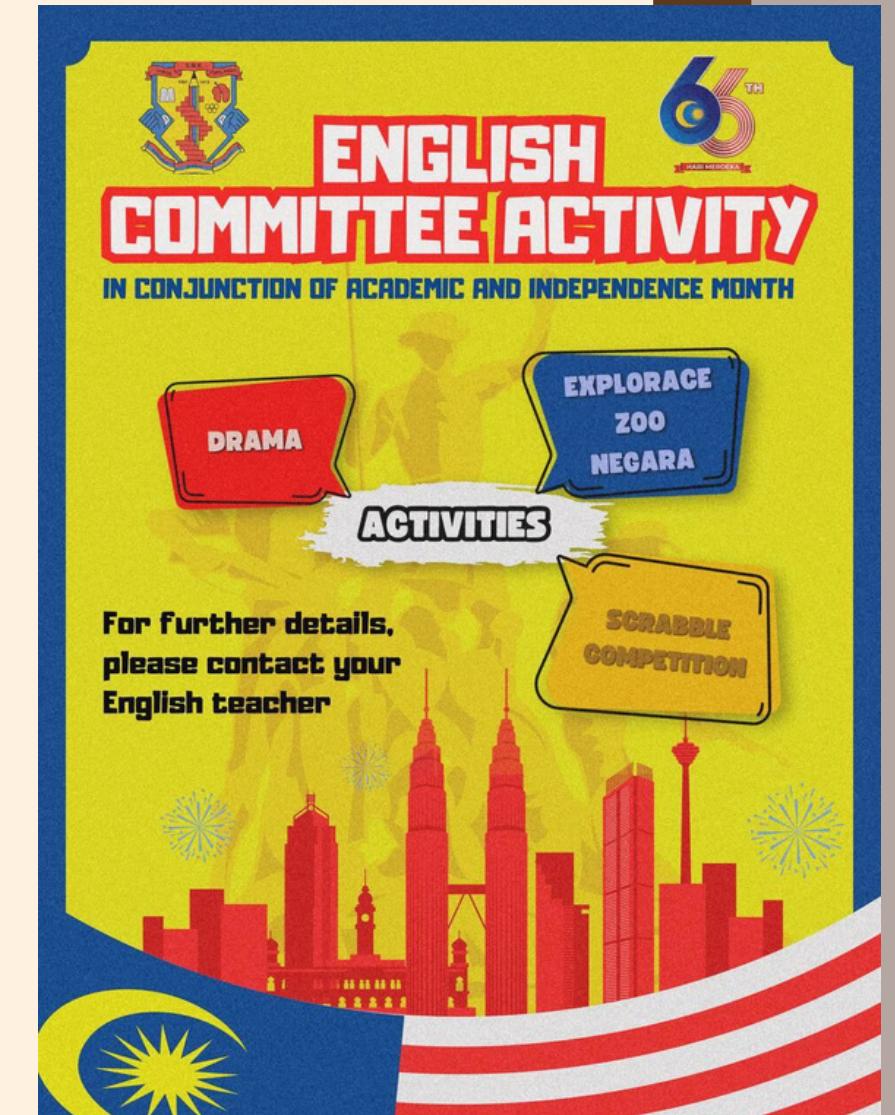

Starting the first day of the week again with the school assembly. This month is academic and independence month for the school, therefore they will be launching this event during the school assembly. The school principal, Sir Jagdave mentioned that it is important for students to participate actively in the events and activities held during this academic and independence month since almost every committee from every subject will hold an activity for students to participate in.

HELP CREATE A POSTER

This Morning my mentor, Miss Farah texted me if I could help create a poster for the English Committee's activities that will be held during the academic and independence month. I was glad that I could help her with that, designing is one of my favourite things to do! She gave me a few samples that i could refer to and I started doing it as soon as possible since she gave me time to finish it by tonight.

THE OUTCOME

After the school assembly, I had two classes for relief. After the relief, I entered my own classes. It was my first actual class with them after their exam weeks, I did an ice breaking session with them so that we can get to know about each other well as I am going to teach them for the the next four months. I did the session with both of my classes. They seem to enjoy getting a new teacher. Previously they were also taught by a practical teacher they said. As I was told by few teachers to never mention that I am a practical teacher (because they might take advantage of me) so I just introduced myself as a new teacher that will be teaching English in SMK Taman Melawati.

TUESDAY

22 AUG 2023

Today, I don't have English classes but i do have one Art class. Same as yesterday, I did an ice breaking session with my Art class. I hope I can teach them well as arts is not my major subject but I will try my best to teach them what they need to know. I also consulted with their main art teacher, teacher Suhaida who previously taught them art subject, she mentioned to just go by the textbook and sometimes ask students to do some drawing activities and jotting down notes as well since the class that I will be teaching has more low proficiency students so its best if I apply an interesting teaching method for their class for them to feel interested in learning the subject.

WEDNESDAY

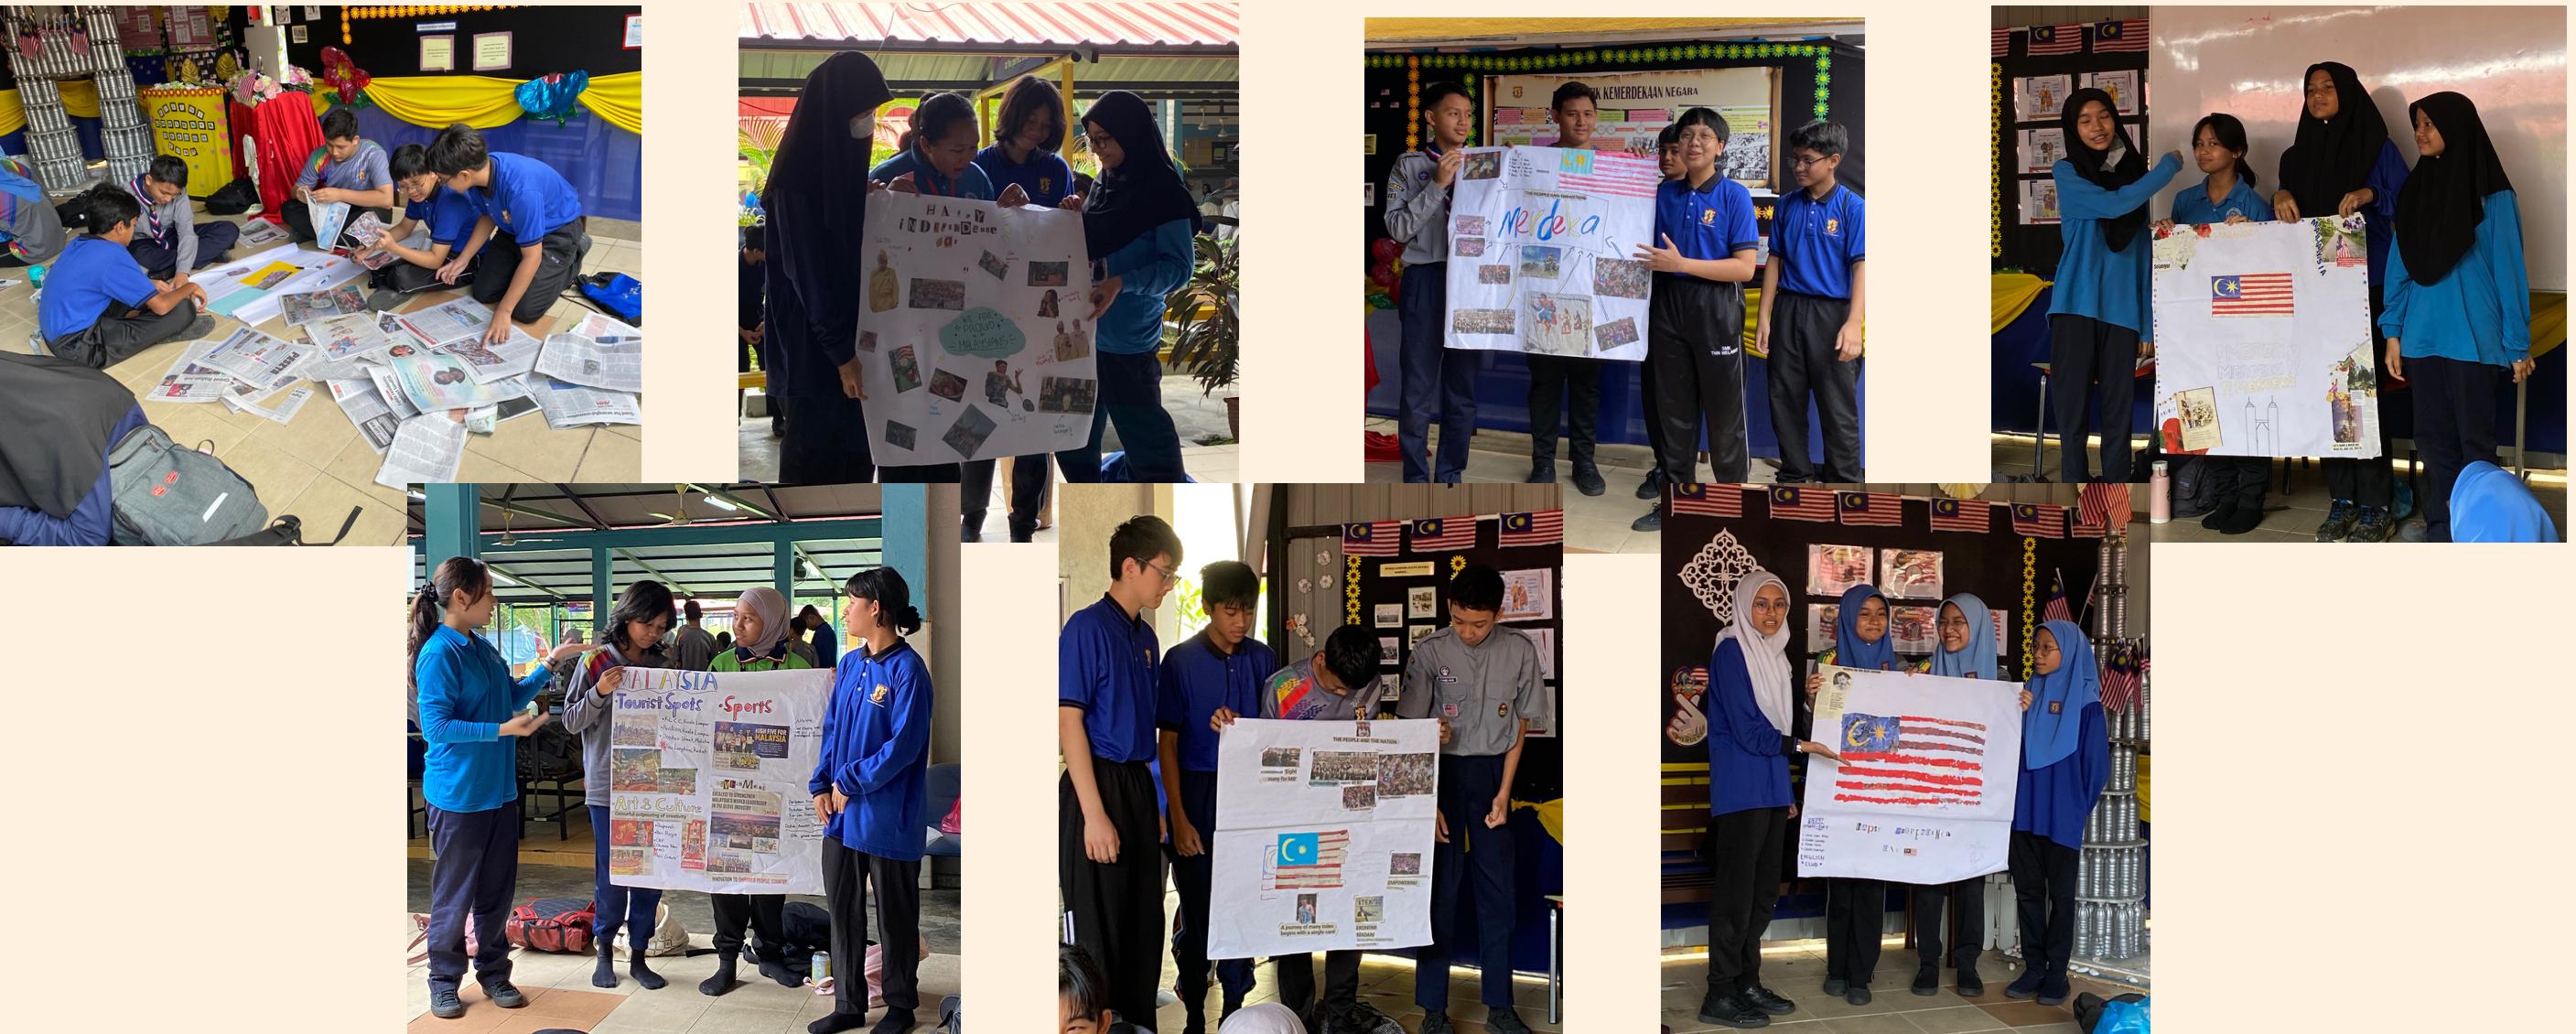

23 AUG 2023

CO-CURRICULUM MEETING (CLUB)

Today is my first co-curriculum meeting for club. I joined the English Club along with Najwa. The activity for today's club meeting is that students have to create a collage with the theme of Malaysia's Independence Day. We told before hand to bring their own materials. Students bought colour papers, news papers, magazines, colour pencils and more. They were so creative. We gave them two hours to complete the activity. After they complete they will be asked o present about their collage. The group with the most meaningful collage wins the activity.

PICTURES DURING THE CO-CURRICULUM CLUB MEETING

In the afternoon, I was asked by Teacher Aisyah and Penolong Kanan petang, Puan Rozana to look over the students who are practicing for choral speaking at the school's library. I didn't have much to do since the students are already well on their own so I just sat in the corner and continued finishing my blog and lesson plan. Then, I went for my relief class. I only have one relief today.

Later in the day, I had classes with my 2 AlJazari and 2 AlKindi, it's my first time teaching them a lesson. Glad they seemed to enjoy my class.

THURSDAY

24 AUG 2023

DISCUSSION ENGLISH PAPER 1

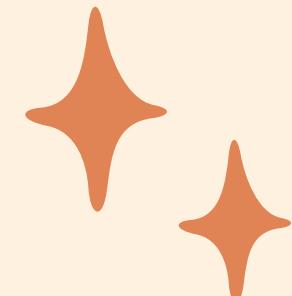

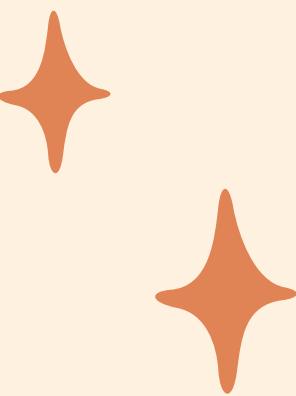

Today the school had no activities but I had classes. For my classes today, I didn't teach them because my Mentor asked me to do a discussion on their exam paper 1. I was given the task to mark their exam paper 1 by my mentor so after I finished marking their papers, I was asked to discuss on the answers. I marked the papers for 3 classes. Some of the marking schemes need to be adjusted since there was a mistake in calculating some of the papers. Some answers had to be reviewed again in order to check if those answers could be accepted or not by the English Committees. I discussed some of the answers with my mentor, teacher Huda and teacher Anushiyaa, they are also English teachers.

FRIDAY

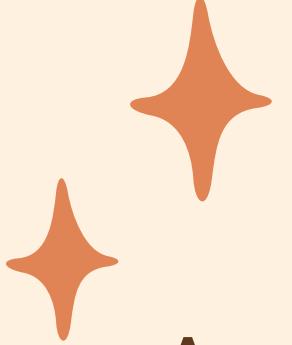

25 AUG 2023

WEEKLY DUTY

Today, I am on duty. My duty is to scan students QR codes as their attendance of coming to school at the gate behind the school. However, I don't have the scan application as none of the teachers has ever mentioned about it before. It is not compulsory for the students to bring their QR code attendance card but the school system follows the Finland education system that is why students brings their QR code attendance card to school. I was on duty with teacher Aisyah, she helped scanning their QR codes for me.

My duty after the school period ends is to watch students carefully exiting the gate entrance at gate C near the school canteen. Students usually are excited when the school period ends but there is always students getting injured when going out of school because many of them run and bump into other students. The area at gate C has one of the most cases of SMK Taman Melawati students getting injured because of falling and tripping over other students.

NO CLASSES ON FRIDAYS

As usual, I normally don't have a schedule on Friday but there will always be classes that I have to enter for relief. I have two classes that I need to enter for relief which is 1 Alpha and 1 Ibnu Qayyim. As for the class 1 Ibnu Qayyim, I was quite shocked at first because none of the students seems to be in class. Turns out there are only a total of four students in that class and only one student from that class attended school today but he came late. Their class teacher cikgu Amirah mentioned that probably the other three students won't be coming to school as next week is mid term break and they are already taking an extra holiday.

**THAT'S ALL
FOR WEEK 4!!**

Strengths

Able to participate in my first co-curriculum activity with the English club. I was given the task by the senior teacher to handle the students and guide them

Opportunities

I was given the opportunity to create the poster for the English Committees and the teachers was impressed with my poster design.

Weaknesses

Couldn't manage my time well to finish marking the papers as well as still adapting with the school timing schedule.

Threats

Some students was dissatisfied with the result during the English Club activity as they mentioned that the teachers did not give clear instruction on what to do.

The letters S, W, O, T are arranged in a 2x2 grid. Each letter is contained within a dark brown rounded rectangular box. The letters are light pink with black outlines. The boxes are separated by thin white lines. The entire grid is set against a light beige background with a decorative border featuring stylized clouds at the top and bottom, and small cacti and a sunburst pattern at the bottom.
